MEMORANDUM FOR: NIO/Strategic Programs
FROM: Director of Central Intelligence
SUBJECT: SALT Briefing and NIE 11-3/8 Distribution

1. Don Rice of Rand, along with Senator Nunn, presented a briefing on SALT to the President last Thursday. It included a fairly gloomy story, I understand, of the problems we are getting into. The President asked them for their further views on what to do. You might want to see if the local Rand office will give us a copy of the briefing. If you have real problems, I'll call Rice.

2. If I'm going to send the summary of NIE 11-3/8 personally to special users, will you come up with a list for me? I have no idea what the distribution is.
